

Disaster Recovery Dispatch Center

BluSky is Ready at a Moment's Notice

When unanticipated events disrupt your business a fast response is crucial to mitigate damage, minimize costs and accelerate recovery. That's why BluSky maintains an in-house Emergency Communications Center 24 hours a day and 365 days a year. Our trained team members are ready to provide assistance and dispatch the appropriate disaster recovery team at a moment's notice.

Recovery Starts with One Call

One call to our **24/7/365 Emergency Hotline** activates a rapid response team of experienced professionals who will quickly stabilize the situation, mitigate "secondary damages", and begin the restoration process.

Emergency Calls Receive Immediate Response:

- ✓ A live BluSky Employee will answer your call, not a message center
- ✓ Calls are then dispatched to the Vice President of the local BluSky branch
- ✓ A BluSky Project Director and appropriate personnel are notified
- ✓ We'll follow up with a phone call and proceed with a plan of action
- ✓ Mobilize and dispatch a professionally trained crew for your specific emergency needs

Call **800.266.5677** 24/7/365
